

CYGNUS PROBE HANDLERS

Cygnus has a range of three probe handlers designed to specific purposes. The Cygnus S1 probe handler is designed for performing UTM surveys on ships' hulls using an observation or light work-class ROV. The Cygnus W1 Probe Handler is designed for Work Class ROVs and the Cygnus G1 Probe Handler is designed for observation, inspection and light-work class ROVs.

CYGNUS S1 PROBE HANDLER

The Cygnus S1 probe handler is designed for performing UTM surveys on ships' hulls using an observation or light work-class ROV. The two sets of magnets first grip the hull plate which allows the UT probe to tilt and align to the hull surface - ensuring the optimal measurement position. The S1 probe holder is constructed from acetal with stainless steel fixings keeping the overall weight down.

Probe Options

When ordering the S1 Probe Handler you must order the appropriate probe separately.

- S2C 2.25MHz Probe with nosecone for Mini ROV P/N 001-8334
- S2C 2.25 MHz Probe with MCIL2M for M5 ROV P/N 001-8335

Nosecone for Mini ROV

MCIL2M for M5 ROV

Feature	Description
Size	175 x 150 x 85mm (6.9 x 6 x 3.3 inch) (excluding handle)
Weight in Air	0.29 kg (10 oz)
Depth Rating	500 meters (1,640 ft)
Material	Black acetyl with stainless fixings
Probe Types	2.25 MHz 13 mm with membrane (3.5 and 5 MHz at special request)
Probe Cable	0.95 m coaxial (other lengths at special request)
Warranty	3 years / 6 months on probes
Part Number	001-8331

CYGNUS W1 PROBE HANDLER

Designed for Work Class ROVs, the Cygnus W1 probe handler is constructed from 316 stainless steel throughout and can be held by a manipulator arm by either a T bar or Fish Tail handle. Its double jointed coupling provides 15 degrees of movement in both planes guided by four pins - giving the optimal alignment. A shock absorbing spring reduces any impact. Any misalignment will be taken up by the coupling resulting in less movement of the manipulator arm position.

Probe Options

When ordering the W1 Probe Handler you must order the appropriate probe separately

- S2C 2.25MHz Probe for M5 ROV P/N 001-8364
- S2C 2.25MHz Probe with nosecone for M4 ROV P/N 001-8317

Manipulator Handles

- ½" T-Bar Handle P/N 001-8315
- ¾" T-Bar Handle P/N 001-8314
- Fishtail Handle P/N 001-8316

Feature	Description
Size	170 x 150 x 90mm (6.7 x 6 x 3.5 inch) (excluding handle)
Weight in Air	5kg (11 lbs)
Depth Rating	500 meters (1,640 ft)
Material	316 stainless steel
Spring Force	15 kg spring starts to compress
Probe Types	2.25 MHz 13mm with membrane (3.5 and 5 MHz at special request)
Probe Cable	5m double jacket coaxial (other lengths at special request)
Warranty	3 years / 6 months on probes
Part Number	001-8311

PRODUCT
PAGE

Designed for observation, inspection and light-work class ROVs. Constructed from acetal, it is both strong and lightweight. It features an adjustable mounting bracket allowing optimum positioning of the UT probe. The UT probe is located in an articulated mount that allows up to 15 degrees of movement in both planes allowing automatic alignment of the probe face to the measurement surface making the ROV pilot's job easier.

Probe Options

When ordering the G1 Probe Handler you must order the appropriate probe separately.

- S2C 2.25MHz Probe with nosecone for Mini ROV **P/N 001-8354**
- S2C 2.25 MHz Probe with MCIL2M for M5 ROV **P/N 001-8355**
